

# PLAY AT HOME IDEAS

## INDOOR TREASURE HUNT

How quickly can you find these things at home?!

- 3 things that are your favourite colour
- Something shiny
- Something soft
- Something very small
- Something noisy

Reuse boxes and packaging with some junk modelling challenges. Who can build the tallest, strongest tower?

## Ice Eggs

Get an adult to help you. Freeze water in some yoghurt pots or small balloons with plastic toys inside. Once frozen put in a tray and try to see how the ice melts to 'hatch' the toy. How can you make the ice melt faster?

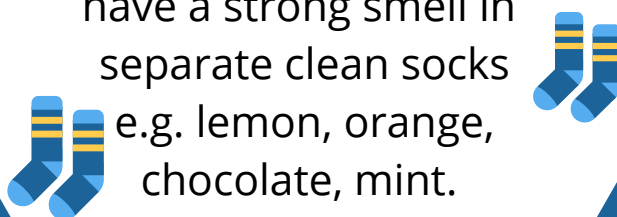

## Drawing Challenge

Take turns thinking of an animal, a toy or object. Start drawing it. How quickly can your family guess what it is?

## Smelly socks!

Put some things that have a strong smell in separate clean socks e.g. lemon, orange, chocolate, mint. Then guess what's in the sock by smelling it!

## Name It Game ???

Take turns to see who can name 5 things that are: big, small, multicoloured, nice to smell, circular. Can you think of more categories?
